PROFESSIONAL SUMMARY

Business Analyst with 1+ year of experience in data analytics, MIS reporting, and process optimization. Expertise in Advanced Excel, Power BI dashboards, and data-driven decision making. Proven track record of developing automated reporting systems that reduced reporting time by 30% while managing 200+ daily data entries with 98%+ accuracy. Strong analytical and stakeholder management skills with ability to translate business requirements into actionable insights.

WORK EXPERIENCE

Business Analyst | eClerx, Pune / *January 2025 – Present*

- Developed Excel-based MIS dashboards and automated reporting systems monitoring 200+ daily data allocations, reducing manual reporting time by 30% and improving operational efficiency
- Analyze performance metrics and KPIs for 50+ monthly business operations, providing data-driven insights and recommendations to management for process improvements
- Create operational summaries, trend analysis reports, and data visualizations using Power BI, supporting strategic decision-making across teams
- Collaborate with stakeholders (operations, compliance, client reporting teams) to gather requirements, identify pain points, and implement data solutions that improved accuracy from 92% to 98%
- Perform root cause analysis on operational bottlenecks and data discrepancies, implementing corrective actions that improved SLA compliance to 95%+

Operations & Business Intern | Pai Bakery Pvt. Ltd., Pune / *Sep 2021 – Nov 2021*

- Analyzed business performance data, tracked revenue and expense trends using Excel, and prepared weekly operational reports identifying 15% cost reduction opportunities
